

	PRE-CONFERENCE DINNER SHORT COURSES* Sunday, Jan. 18	Monday-Tuesday, Jan. 19-20	DINNER SHORT COURSES* Tuesday, Jan. 20	Wednesday-Thursday (am), Jan. 21-22	Thursday (pm)-Friday, Jan. 22-23
 <b>PIPELINE 1</b> Protein Engineering & Development	Short Courses	Recombinant Protein Therapeutics	Short Courses	Enhancing Antibody Binding and Specificity	Improving the Clinical Efficacy of Antibody Therapeutics
 <b>PIPELINE 2</b> Antibody Therapeutics	Short Courses	Cancer Targets for Antibody Therapeutics	Short Courses	Antibody-Drug Conjugates	Bispecific Antibody Therapeutics
 <b>PIPELINE 3</b> Formulation & Stability	Short Courses	Optimizing Biologics Formulation Development	Short Courses	Lyophilization and Emerging Drying Technologies	Protein Aggregation and Emerging Analytical Tools
 <b>PIPELINE 4</b> Expression & Production	Short Courses	Engineering Genes, Vectors, Constructs and Clones	Short Courses	Recombinant Protein Expression and Production	Transient Protein Production
 <b>PIPELINE 5</b> Analytics & Impurities	Short Courses	Characterization of ADCs, Bispecifics and New Biotherapeutics	Short Courses	Detection and Characterization of Particulates and Impurities	Extractables and Leachables
 <b>PIPELINE 6</b> Process Technologies & Purification	Short Courses	Single-Use Technologies and Continuous Processing	Short Courses	Protein Purification and Recovery	Higher-Throughput Protein Purification
<b>NEW</b> Accompanying Conferences	Short Courses		Short Courses	- Membrane Proteins - CHO Cells	
Training Seminars	Short Courses	Intro to Bioprocessing	Short Courses	Intro to Formulation Intro to Analytical Method Development and Validation for Therapeutic Proteins	

**MAXIMUM SAVINGS!**

**CREATE A CUSTOM AGENDA!**
