

**CONFERENCE
AT-A-GLANCE**

PEPTALK 2023

THE PROTEIN SCIENCE AND PRODUCTION WEEK

January 16-20, 2023 | San Diego, CA HILTON SAN DIEGO BAYFRONT AND VIRTUAL

click stream or track titles
to view full agenda

 **ANTIBODY DISCOVERY & ENGINEERING**

 **BISPECIFIC ANTIBODY DEVELOPMENT**

 **CHARACTERIZATION OF BIOTHERAPEUTICS & VACCINES**

 **CELL & GENE THERAPY**

 **BIOTHERAPEUTIC EXPRESSION & PRODUCTION**

 **PROCESS TECHNOLOGY & INNOVATION**

 **TRAINING SEMINARS** *In-Person Only*

Monday, January 16 - Tuesday (am), January 17	Tuesday (pm), January 17 - Wednesday, January 18	Thursday, January 19 - Friday, January 20
Intelligent Antibody Discovery Part I	Intelligent Antibody Discovery Part II	Creative Protein Engineering
Training Seminar TBA	Developability of Bispecific Antibodies	Safety and Efficacy of Bispecific Antibodies, ADCs and Combination Therapy
Characterization of Biotherapeutics	Characterizing Protein Aggregates and Impurities	Characterization and Development of Vaccines
Cell Therapy Analytics & Manufacturing	Gene Therapy Analytics & Manufacturing	Training Seminar TBA
Cell Line Engineering and Development	Recombinant Protein Expression and Production	Optimizing Workflows in Protein Production Laboratories
Higher-Throughput Bioproduction	Training Seminar TBA	Advanced Purification and Recovery
To Be Announced
